1.0 INTRODUCTION

Title VI of the 1964 Civil Rights Act, 42 U.S.C. 2000d provides that: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." The broader application of nondiscrimination law is found in other statutes, executive orders, and regulations, which provide additional protections based on age, sex, creed (religion), and disability, including the 1987 Civil Rights Restoration Act, which extended nondiscrimination coverage to all programs and activities of federal-aid recipients, subrecipients, and contractors, including those that are not federally-funded (see Appendix A – Applicable Nondiscrimination Authorities).

ARHS-ICPTA is a recipient of Federal Transit Administration (FTA) funds from the North Carolina Department of Transportation (NCDOT). ARHS-ICPTA establishes this Title VI Nondiscrimination Plan for the purpose of complying with Title VI of the Civil Rights Act of 1964, as required by FTA Circular 4702.1B, and related requirements outlined within the FTA Certifications & Assurances, "Nondiscrimination Assurance." This document details the nondiscrimination program, policies, and practices administered by ARHS-ICPTA, and will be updated periodically to incorporate changes and additional responsibilities as they are made. This Plan will be submitted to NCDOT or FTA, upon request.

2.0 DESCRIPTION OF PROGRAMS AND SERVICES

The intent of ARHS-ICPTA is to provide high quality transportation services to the people who live in or visit the five counties ARHS-ICPTA serves: Pasquotank, Perquimans, Camden, Chowan and Currituck.

Transportation is a service, open to the General Public, which provides travel to or from service providers, community resources and/or other designated areas.

ARHS-ICPTA's fleet of buses and vans are equipped with special features to transport handicapped, elderly and general public clients. For instance, vans are designed for easy boarding and off-loading for passengers who need assistance. In addition, vehicles are equipped with wheelchair lifts mounted at the rear or side for easy and safe loading and off-loading. An important part of ARHS-ICPTA's service is the timely delivery of passengers to their designation. This enhances the program's reliability and trust with contracted agencies and the public.

Drivers are required to participate in road training, on-the-job training, emergency operating training, and periodic safety meetings.

Hours of operation are from 4:30 am – 7:30 pm, Monday through Friday (transportation can be scheduled outside of these time frames if approved by management).

Transportation appointments can be scheduled by calling 252-338-4480 with at least a 48-hour advance notice of the trip. Hearing impaired can call 1-800-735-2962 (TDD/TTY) or 1-800-735-8262 (Voice).

ARHS-ICPTA is funded through State, Local, and Federal (5311& 5310) funds.

8.7 POPULATION LOCATIONS

Federal-aid recipients are required to identify the characteristics and locations of populations they serve, particularly by race/ethnicity, poverty and limited English proficiency. We will document this narratively or through maps that overlay boundaries and demographic features on specific communities, and provide this information to NCDOT, upon request.

9.0 TITLE VI EQUITY ANALYSES (AND ENVIRONMENTAL JUSTICE ASSESSMENTS)

Title VI Equity Analyses. In accordance with FTA Circular 4702.1B, a Title VI equity analysis will be conducted whenever we construct a facility, such as a vehicle storage facility, maintenance facility, or operation center. The equity analysis will be conducted during the planning stage, with regard to the location of the facility, to determine if the project could result in a disparate impact to minority communities based on race, color or national origin. Accordingly, we will look at various alternatives before selecting a site for the facility. Project-specific demographic data on potentially affected communities and their involvement in decision-making activities will be documented. Title VI Equity Analyses will remain on file indefinitely, and copies will be provided to NCDOT, upon request, during compliance reviews or complaint investigations.

Environmental Justice Analyses. As required by FTA C 4703.1, environmental justice (EJ) analyses will be conducted to determine if our programs, policies, or activities will result in disproportionately high and adverse human health and environmental effects on minority populations and low-income populations. EJ applies to our projects, such as when we construct or modify a facility, and our policies, such as when there will be a change in service, amenities or fares. Thus, we will look at various alternatives and seek input from potentially affected communities before making a final decision. Demographic data will be collected to document their involvement in the decision-making process. EJ analyses will remain on file indefinitely, and copies will be provided to NCDOT, upon request, during compliance reviews or complaint investigations.

10.0 PUBLIC INVOLVEMENT

10.1 INTRODUCTION

Effective public involvement is a key element in addressing Title VI in decision-making. This **Public Participation Plan** describes how **ARHS-ICPTA** will disseminate vital agency information and engage the public. We will seek out and consider the input and needs of interested parties and groups traditionally underserved by transportation systems who may face challenges accessing our services, such as minority and limited English proficient (LEP) persons. Underlying these efforts is our commitment to determining the most effective outreach methods for a given project or population.

General public involvement practices will include:

- Scheduling meetings at times and locations that are convenient and accessible for minority and LEP communities.
- Employing different meeting sizes and formats.
- Coordinating with community- College of the Albemarle, Elizabeth City State University, Sentra Hospital, Chowan DSS, Perquimans DSS, Pasquotank DSS, Camden DSS, Currituck DSS, Skills Inc. Albemarle Commission, Albemarle Regional Health Servicers, Albemarle Food Bank, Hopeline, etc. public engagement strategies that reach out specifically to members of affected minority and/or LEP communities.
- Providing opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments.

10.2 PUBLIC NOTIFICATION

Passengers and other interested persons will be informed of their rights under Title VI and related authorities with regard to our program. The primary means of achieving this will be posting and disseminating the policy statement and notice as stipulated in Sections 3.0 and 4.0, respectively. Additional measures may include verbally announcing our obligations and the public's rights at meetings, placing flyers at places frequented by targeted populations, and an equal opportunity tag-on at the end of radio announcements. The method of notification will be determined through an initial screening of the area.

10.3 DISSEMINATION OF INFORMATION

Information on Title VI and other programs will be crafted and disseminated to employees, contractors and subrecipients, stakeholders, and the general public. Public dissemination efforts may vary depending on factors present, but will generally include: posting public statements setting forth our nondiscrimination policy in eye-catching designs and locations; placing brochures in public places, such as government offices, transit facilities, and libraries; having nondiscrimination language within contracts; including nondiscrimination notices in meeting announcements and handouts; and displaying our Notice of Nondiscrimination at all our public meetings.

At a minimum, nondiscrimination information will be disseminated on our website and on posters in conspicuous areas at our office(s). Project-related information and our most current Title VI-related information will be maintained online.

10.4 MEETINGS AND OUTREACH

There is no one-size-fits-all approach to public involvement. A variety of comprehensive and targeted public participation methods will be used to facilitate meaningful public involvement. Methods for engaging stakeholders and target audiences, including traditionally underserved and excluded populations (i.e., minorities, youth, low-income, the disabled, etc.) will include the following:

Public Relations and Outreach

Public relations and outreach (PRO) strategies aim to conduct well-planned, inclusive and meaningful public participation events that foster good relations and mutual trust through shared decision-making with the communities we serve.

- We will seek out and facilitate the involvement of those potentially affected.
- Public events will aim to be collaborative, fun, and educational for all, rather than confrontational and prescriptive.
- Media plans will typically involve multiple channels of communication like mailings, radio, TV, and newspaper ads.
- Abstract objectives will be avoided in meeting announcements. Specific “attention-grabbing” reasons to attend will be used, such as “Help us figure out how to relieve congestion on [corridor name]” or “How much should it cost to ride the bus? Let us know on [date].”
- Efforts will be made to show how the input of participants can, or did, influence final decisions.
- We will do our best to form decision-making committees that look like and relate to the populations we serve.
- We will seek out and identify community contacts and partner with local community- and faith-based organizations that can represent, and help us disseminate information to, target constituencies.
- Demographic data will be requested during public meetings, surveys, and from community contacts and committee members.

Public Meetings

“Public meeting” refers to any meeting open to the public, such as hearings, charrettes, open house and board meetings.

- Public meetings will be conducted at times, locations, and facilities that are convenient and accessible.
- Meeting materials will be available in a variety of predetermined formats to serve diverse audiences.
- An assortment of advertising means may be employed to inform the community of public meetings.
- Assistance to persons with disabilities or limited English proficiency will be provided, as required.

Small Group Meetings

A small group meeting is a targeted measure where a meeting is held with a specific group, usually at their request or consent. These are often closed meetings, as they will typically occur on private property at the owner’s request.

- If it is determined that a targeted group has not been afforded adequate opportunities to participate, the group will be contacted to inquire about possible participation methods, including a group meeting with them individually.
- Unless unusual circumstances or safety concerns exist, hold the meeting at a location of the target group’s choosing.
- Share facilitation duties or relinquish them to members of the target group.
- Small group discussion formats may be integrated into larger group public meetings and workshops. When this occurs, the smaller groups will be as diverse as the participants in the room.

Community Surveying

- Opinion surveys will occasionally be used to obtain input from targeted groups or the general public on their transportation needs, the quality or costs of our services, and feedback on our public outreach efforts.
- Surveys may be conducted via telephone, door-to-door canvassing, at community fairs, by placing drop boxes in ideal locations, or with assistance from other local agencies like social services.
- Surveys will be translated into languages other than English, when appropriate.

10.5 LIMITED ENGLISH PROFICIENCY

Limited English Proficient (LEP) persons are individuals for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English. These individuals reported to the U.S. Census Bureau that they speak English less than very well.

To comply with USDOT's LEP Policy Guidance and Executive Order 13166, this section of our Title VI Plan outlines the steps we will take to ensure meaningful access by LEP persons to all benefits, services and information provided under our programs and activities. A four-factor analysis was conducted to determine the LEP language groups present in our planning area and the specific language services that are needed.

Four Factor Analysis

This Four Factor Analysis is an individualized assessment that balances the following four factors:

- (1) The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee;
- (2) The frequency with which LEP individuals come in contact with the program;
- (3) The nature and importance of the program, activity, or service provided by the recipient to people's lives; and
- (4) The resources available to the recipient and costs.

Factor #1: *The number or proportion of LEP persons eligible to be served or likely to be encountered by the program, activity, or service of the recipient.*

*As per instructions survey B16001 data was used. Language spoken at home by ability to speak English for the population 5 years and over survey is done every 5 years. 2020 numbers have not been released for our counties.

ARHS-ICPTA provides transportation service for Chowan, Perquimans, Pasquotank, Camden and Currituck Counties.

The US Census Bureau – American Fact Finder (2008-2012) reports there are numerous languages spoken in the U.S.A. Some of these languages include Spanish, German, Russian, Japanese, Tagalog, and Vietnamese. After English, the second largest language group is Spanish.

The Safe Harbor Threshold is calculated by dividing the population estimate for a language group that “speaks English less than very well” by the total population of the county. The LEP Safe Harbor Threshold provision stipulates that for each LEP group that meets the LEP language threshold (5% or 1,000 individuals, whichever is less), the ARHS-ICPTA must provide translation of vital documents in written format for non-English speaking persons.

ARHS-ICPTA’s service area does not meet the Safe Harbor Threshold.

Factor #2: *The frequency with which LEP individuals come in contact with the program.*

ARHS-ICPTA (and its contractor/lessee, if relevant) will be trained on what to do when they encounter a person that speaks English less than very well. ARHS-ICPTA and/or its contractor/lessee will track the number of encounters and consider making adjustments as needed to its outreach efforts to ensure meaningful access to all persons and specifically to LEP and minority populations of the Transit System’s programs and services.

ARHS-ICPTA provides approximately 100,000 trips per year. Data will be kept by ARHS-ICPTA’s Receptionist /Dispatchers using the log listed below (ARHS-ICPTA is a demand response transit system, all trips are scheduled through our Receptionist /Dispatchers.)

Date	Client's Primary Language	Was our translation method helpful to the client Yes/No	Is ICPTA's service important to you? Yes/No	How many times a month do you use our Transit Service?	What is the reason for your trip request?

Fluent Translation Services 919-570-8686 code 230308

All Language Translation needs will be performed using Fluent Translation Services. ARHS-ICPTA has an open door policy and will provide rides to any person who requests a ride. If an individual has speech or language limitations, the dispatcher or driver will work with the Transit Manager and ARHS-ICPTA, if needed to ensure the individual receives access to the transportation service.

Since implementing our log list, we have not received any inquiries or have had any encounters by a LEP individual.

Factor #3: The nature and importance of the program, activity, or service provided by the recipient to people's lives.

ARHS-ICPTA understands a LEP person with language barrier challenges also faces difficulties obtaining health care, education or access to employment. Our transportation system is a key link to connecting LEP persons to these essential services.

ARHS-ICPTA's Locally Coordinated Plan and Community Transportation Service Plan have identified public transportation as link for the local population to reach public and private resources throughout the region. Serious consequences would occur to individuals if language barriers prevented them from using public transportation access to these resources. ARHS-ICPTA provides assistance to the general public including LEP's on how to access our transportation services.

ARHS-ICPTA's assessment of which programs, activities and services are most critical included contact with community organization(s) that serve LEP persons, as well as contact with LEP persons themselves to obtain information on the importance of the modes or the types of services that are provided to the LEP populations.

Factor #4: The resources available to the recipient and costs.

Reasonable attempts will be made to accommodate any persons encountered who require written translation or oral interpretation services. The cost for these services will be budgeted under the Contracted Services portion of the budget.

If someone contacts ARHS-ICPTA with Limited English Proficiency the following procedure will be followed:

- Identify the clients preferred language
- Contact Fluent language services
- Give Fluent the code and tell them what language needs to be translated into English

- Use the Fluent Translator to communicate with the client.
- Use the Limited English Proficiency Log to document contact with the non-English speaking client

LANGUAGE ASSISTANCE PLAN

As a result of the above four factor analysis, a Language Assistance Plan (LAP) was not required. However, reasonable attempts will be made to accommodate any persons encountered who require written translation or oral interpretation services.

Language Assistance Measures

The following general language assistance measures are reasonable and achievable for our organization at this time:

- Translating public notices posted in the local paper and at stations, stops, and in vehicles into **any languages that meet the safe harbor threshold in Factor 1**.
- Vital documents—such as brochures with service times and routes—are translated into Spanish across the entire service area, and available in our facilities, doctor's offices and shopping centers.
- Making a concerted effort to inform LEP persons of available language assistance via staff, broadcast media, relationship-building with organizations, and our website.
- Posting vital bulletin board information and disseminating community surveys in various languages.
- Providing translation and interpretive services when appropriate (upon request or predetermined) at meetings.
- Determining how best to take public involvement to LEP groups directly, including through small group meetings.
- The Transit System has a contract with Fluent Language Solutions to provide translation services to Non-English Speaking clients. **Fluent Language Solutions – 1-800-821-3420**
- Where possible, utilizing or hiring staff who speak a language other than English and can provide competent language assistance.
 - Note: We will not ask community-based organizations (CBO) to provide, or serve as, interpreters at our meetings. Relying upon CBOs in that capacity could raise ethical concerns. If a CBO decides (on its own) to translate any materials for its constituents, or bring interpreters it trusts to our meetings, we will not object. That is their right.
- Using language identification flashcards to determine appropriate services.
- Establishing a process to obtain feedback on our language assistance measures.

Written Translation and Oral Interpretation

Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP persons. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. When appropriate, translation of any document will be communicated orally in the appropriate language.

In the event that the 5% trigger is reached for a LEP language group that is fewer than 50 persons, written notice will be provided in the primary language of that group of the right to receive competent oral interpretation of vital written materials, free of cost. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with LEP community contacts.

Staff Support for Language Assistance

- Agency staff have been provided Fluent Language Solutions phone number that which can assist LEP persons with written translation and oral interpretation, including the Title VI Officer. This list will be updated as needed to remain current.
- All main offices and vehicles will have on hand a supply of language assistance flashcards and materials translated into the languages of the largest LEP language groups. When encountered by an LEP person, staff (including drivers) should present the individual with an iSpeak flashcard and let them choose the language. Do not assume you know their preferred language. Drivers are permitted to seek volunteer assistance from other passengers before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.
- Training: All employees will be instructed on our procedures for providing timely and reasonable assistance to LEP persons. New employee orientation will also explain these procedures to new hires. Staff routinely encountering LEP persons by telephone or in person will receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgements ([Section 5.0](#)) and basic Title VI trainings ([Section 11.0](#)).

Project-Specific LEP Outreach

A project-specific four factor analysis will be conducted for any project or outreach event limited to a specific geographical area (i.e., the project study area or outreach area, respectively). Language assistance will be provided in accordance with the measures already outlined, including translating written materials for each LEP language group that is 5% or 1,000, whichever is less, of the project or outreach area population.

Monitoring and Updating the LAP

Monitoring of daily interactions with LEP persons will be continuous, thus language assistance techniques may be refined at any time. This Plan will be periodically reviewed—at least annually—to determine if our assistance measures and staff training are working. Resource availability and feedback from agency staff and the general public will be factors in the evaluation and any proposed updates. Among other practices, this process will include working with LEP community contacts to determine if our employees are responding appropriately to requests made with limited English or in languages other than English, and observing how agency staff responds to requests, including observing drivers or surveying riders. To the best of our ability, we will attempt to never eliminate a successful existing LEP service. Significant LEP program revisions will be approved or adopted by our board or designated official and dated accordingly. LEP data and procedures will be reviewed and updated at least once every three years.

- Current members will be made aware of diversity goals and polled for nominees.
- Officials from local minority groups will be made aware of the diversity goals and polled for nominees.
- Key Contacts from LEP groups will be contacted and polled for nominees.
- A recruitment notice for a Board Member opening will be posted on our website.
- An advertisement of recruitment notice for a Board Member will be placed with the local newspaper and other publications popular with minorities and other protected groups.

13.0 RECORD-KEEPING AND REPORTS

As a subrecipient of FTA funds through NCDOT, we are required to submit a Title VI Program update to NCDOT every three years, on a schedule determined by NCDOT. Records will be kept to document compliance with the requirements of the Title VI Program. Unless otherwise specified, Title VI-related records shall be retained indefinitely. These records will be made available for inspection by authorized officials of the NCDOT and/or FTA. Reports on Title VI-related activities and progress to address findings identified during Title VI compliance reviews may also be provided, upon request. It will occasionally be necessary to update this Title VI Plan or any of its components (e.g., complaints, Public Involvement, and LEP). Updates will be submitted to NCDOT for review and approval and adopted by our Board when required.

In addition to items documented throughout this Plan, records and reports due at the time of compliance reviews or investigations may include:

17. Service standards (**quantitative measures**) developed for *each specific fixed route mode* that the recipient provides (standards may vary by mode) must be submitted for each of the following indicators:

- Vehicle load for each mode (Can be expressed as the ratio of passengers to the total number of seats on a vehicle. For example, on a 40-seat bus, a vehicle load of 1.3 means all seats are filled and there are approximately 12 standees.)
- Vehicle headway for each mode (Measured in minutes (e.g., every 15 minutes), headway refers to the amount of time between two vehicles traveling in the same direction on a given line or combination of lines. A shorter headway corresponds to more frequent service. Service frequency is measured in vehicles per hour (e.g., 4 buses per hour).)
- On time performance for each mode (Expressed as a percentage, this is a measure of runs completed as scheduled. The recipient must define what is considered to be "on time." Performance can be measured against route origins and destinations only, or against origins and destinations as well as specified time points along a route.)
- Service availability for each mode (Refers to a general measure of the distribution of routes within a transit provider's service area, such as setting the maximum distance between bus stops or train stations, or requiring that a percentage of all residents in the service area be within a one-quarter mile walk of bus service.)

18. Service policies (**system-wide policies**) adopted to ensure that service design and operations practices do not result in discrimination on the basis of race, color or national origin, must be submitted for each of the following:

- Transit amenities for each mode (e.g., benches, shelters/canopies, printed materials, escalators/elevators, and waste receptacles. **NOTE:** Attach this information only if you have decision-making authority over siting transit amenities or you set policies to determine the siting of amenities.)
- Vehicle assignment for each mode (Refers to the process by which transit vehicles are placed into service throughout a system. Policies for vehicle assignment may be based on the type or age of the vehicle, where age would be a proxy for condition, or on the type of service offered.)

Title VI and Related Authorities

Title VI of the Civil Rights Act of 1964 (42 U.S.C.
